

Sustainability Policy

Abilities Incorporated T/a Abilities Group is an incorporated society that employs people with disabilities. We operate in the Contract Packaging , Contract Assembly and Contract Recycling industries. Sustainability in everything we do is of extreme importance to us and is the only way we can grow our business to the benefit of the staff, our customers and the community in general.

Abilities Group is committed to addressing sustainability through a responsible approach to everything we do. Our actions could have an impact on economic, environmental, cultural or social issues within our community and through sustainable principles we are ensuring that these impacts are only positive.

Our Core Commitments are:

- To make more efficient use of resources, including: labour, materials, energy & other resources.
- To minimise any negative impact of our operations on the community.
- To raise awareness of sustainability in our workforce and other stakeholders.
- To support the local community through education on sustainability.
- To continue to train and develop our staff to the best of their capabilities.
- To have a continuous improvement ethos in everything we do.

As an organisation Abilities Group can make a tangible contribution to the future of our community, city, country and world by being responsible and making sustainable choices. We are committed to this and encourage our staff, families and other stakeholders to also be sustainable in everything they do.

Abilities Group is committed to sustainability as part of our overall vision and this policy.

Peter Fraher
Managing Director
